Message from the Leadership Team

Summer is a great time of blessing. We can appreciate God's wonderful creation as we travel and see new places. Perhaps we just get new chances to appreciate what God has given us on our doorstep. It is a time to relax, take a break and recharge our batteries. It is a time to enjoy time with our friends and family. Possibly it is a time when we go away to Christian camps and conferences to meet with other Christians and learn from God's word. Whatever we do over the holidays we need to thank God for his goodness to us and make the most of the life he has given us to enjoy.

Throughout the summer a lot of the activities at church are suspended because a lot of people are away but this should not mean suspension of our Christian lives. We are called to live for Christ wherever we are 365 days a year. Although some regular activities are not on in August there are plenty of opportunities to do other things. Perhaps you could use the time to serve God at the Walney holiday club, perhaps you could meet with someone for prayer and fellowship, maybe you could visit someone who is ill or in need. Perhaps these things might be new and so you might be apprehensive about stepping out. May I encourage you to do something new for God this summer. I'm sure that by stepping out God will bless you more than you could imagine.

As we enjoy the life God has given us this summer, lets take some time to see what we can give back to him. We don't give back to him because we have to but because we want to. When we realise what Jesus has done for us and when we love him this is our natural response to say thank you. How are you going to thank Jesus for your life?

Renovations

Once the car park work is complete we are looking to tidy up and maintain the external face of the Abbey Road building by:

- treating and decorating the external woodwork (including the cross)
- repairing (and replacing as necessary) defective guttering

We are also still considering options on the heating and hot water system, including some investigation of solar energy. Enquiries have also started regarding upgrading the sound desk and permanently mounting the projection system.
